SPECTROMORPHOLOGY

2023-01-05

Onset:

‘, ‘downbeat’]

Continuation:

‘statement’]

Termination:

ution’, ‘plane’]

emergence
prolongation
release
oscillation
voluntary
ight
dominant
coexistence
center

Change structProc [1, 2]

emergence
passage
closure
spiral
voluntary
ight
dominant
conflict
canopy

Change structProc [2, 2]

emergence
passage
plane
ascent
pressured
loose
subordinate
conflict
root

Change structProc [0, 1]

attack

statement

plane

contraction

voluntary

ight

dominant

conflict

center

Change structProc [1, 0]

upbeat

maintenance

plane

dissipation

voluntary

loose

subordinate

conflict

root

Change structProc [1, 2]

upbeat

maintenance

closure

divergence

pressured

loose

subordinate

coexistence

root

DEFINITIONS

ONSETS

journey

d

a piece or passage

on or place

preceding an accented beat

CONTINUATIONS

r

her

ng

one or something

ithin a composition

TERMINATION

nt, phenomenon, or product

o exist or be in use

of an artistic work

free

armony

, thought, or development

MOTION AND GROWTH

UNI

ill

, thought, or development

ling

RECIPROCAL

parabola:

oving smoothly up and down

CYCLIC

er

(or tightening) curve

ling motion

CENTRIC

hirlpool or whirlwind

ound a center

it is rotated

BI/MULTIDIRECTIONAL

llection of things

ish

widening

d in size

a common center)

ies or lineages

atural or influenced realm

issue, or cell

SPECTRAL SPACE

canopy: above 5,000Hz

center: 300Hz and 5,000Hz

root: below 300Hz
